Power Supply: **180W 110-230VAC**

Hot Swap Drives: **2x 2.5" HDD/SSD**

Motherboard IO Ports

PSU: **180W 100-240VAC 60-50Hz**

Lead time: **2 Working Days**

Noise & Efficiency

All of our PCs are noise tested and have a standard DB rating so you know exactly how loud they will be.

Energy consumption is an important factor in the ongoing cost of running a machine. We use the familiar energy ratings seen on domestic appliances for all of our products. A is most energy efficient whilst G is least efficient.
