

1U NUC C55L

☆☆☆☆☆

Latest 1U Rackmount NUC PC with support for 7th Generation i3 and i5 NUC motherboards. Our bespoke case can function standalone or rack mounted to hold 3 of our NUC modules side by side in a 1U rack space. Inside the case is an industrialised 110-230VAC PSU and we've integrated some useful expansion options including;

- Single or Dual Additional LAN Ports - [M.2 Dual Gigabit Ethernet Card](#).
- Rear Headphones/MIC/USB Port Option - C35/C55L Models only.
- 2.5" SSD/HDD Bay and WI-FI.

1U Front Mounting Panel Shown is Supplied Separately - only compatible with our NUC case modules.

Noise & Efficiency

All of our PCs are noise tested and have a standard DB rating so you know exactly how loud they will be.

Energy consumption is an important factor in the ongoing cost of running a machine. We use the familiar energy ratings seen on domestic appliances for all of our products. A is most energy efficient whilst G is least efficient.
