Expansion Slot 3: **Not available with this case**

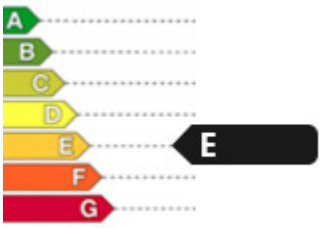
PSU: **180W 100-240VAC 60-50Hz**

Lead time: **3 Working Days**

Noise & Efficiency

All of our PCs are noise tested and have a standard DB rating so you know exactly how loud they will be.

Energy consumption is an important factor in the ongoing cost of running a machine. We use the familiar energy ratings seen on domestic appliances for all of our products. A is most energy efficient whilst G is least efficient.



46 dB
