Weight: **8KG**
Power Supply: **450W 110-230VAC**
Front USB: **2x USB3.0 Ports**
Lead Time: **3-5 Working Days**

Noise & Efficiency

All of our PCs are noise tested and have a standard DB rating so you know exactly how loud they will be.

Energy consumption is an important factor in the ongoing cost of running a machine. We use the familiar energy ratings seen on domestic appliances for all of our products. A is most energy efficient whilst G is least efficient.
