Optical Drive: **Slimline DVD/Blu-Ray Optional**
Front USB: **2x USB 3.0**
Power Supply: **180W 110-230VAC**
Lead Time: **3-5 Working Days**

Motherboard IO Ports

Serial Ports: **4 Optional Ports Available**

Expansion Slot: **PCIe x16 (Full Height)**

Expansion Slot 2: **Not available with this case**

Expansion Slot 3: **Not available with this case**

PSU: **250W 100-240VAC 60-50Hz 80PLUS**

Lead time: **5 Working Days**

Noise & Efficiency

All of our PCs are noise tested and have a standard DB rating so you know exactly how loud they will be.

Energy consumption is an important factor in the ongoing cost of running a machine. We use the familiar energy ratings seen on domestic appliances for all of our products. A is most energy efficient whilst G is least efficient.
