# 16FN | **C14**

Meet the **16FN**, the cutting-edge mini PC that combines silent operation with incredible performance. Originally developed as an R&D project, it's built for tackling even the most demanding, graphics-intensive applications—without making a sound. Powered by the Intel NUC platform, the 16FN doesn't just deliver high performance; it stays cool while doing it. Thanks to its rugged aluminum housing and efficient heat pipe system, heat is distributed quickly and effectively around the case. Even an Intel i7 CPU can run above base clock speeds without overheating—impressive, right? Here's what makes the 16FN even more unique: An internal AC/DC power supply (goodbye, bulky power bricks!) 1U rack mount panel, making it possible to install two units in a 1U rack cabinet Wall mounting holes for those hard-to-reach installs Power-over-Ethernet support Up to 3 NIC ports Optional RS232 port for added versatility Oh, and did we mention customizability? If you're looking for bespoke metalwork or branding options to make it truly yours, we've got you covered. Whether for a tidy office setup, a powerful server rack, or a sleek wall mount, the 16FN is ready to perform. Get in touch to make it a perfect fit for your needs.

PRODUCT DETAILS

System Specifications

CPU:	Intel Ultra 5 125H 1.2GHz 14C/18T
RAM:	8GB Crucial DDR5 4800MHz SODIMM
HDD:	500GB M.2 PCIe 4.0 NVMe Crucial P3 Plus SSD
DVD:	No DVD drive bay
GFX Output:	Integrated / On-board with 2x HDMI Output(s)
GFX Card:	None
LAN:	Intel i225 (2.5Gb/s)
WLan:	Built in Wifi AX211D2W
USB Ports Rear:	1x USB2.0, 1x USB3.2 Gen2
Serial Ports:	Not available on this model
PSU:	120W 100-240VAC 60-50Hz Assy
Lead Time - Text:	4 Working Days
Lead Time - Integer:	4
Thunderbolt:	2x Gen4 Ports
Warranty:	Standard Only

Case Information

Front USB:	1x USB3.0
Hot Swap HDD Bay:	Not available with this case
PCIE Slots:	Not available with this case
Power Supply:	110-230VAC, 12V-20 VDC or PoE++
Weight:	3 KG
Size:	220x180x44mm
