

POCKET | W14

Industrial-grade performance with a compact, wall-mountable design, making it an ideal solution for space-constrained environments. Measuring just 297x196x58mm, this powerhouse fits discreetly into locations where traditional PCs won't. Equipped with a built-in internal power supply, the Pocket PC offers flexible power options, supporting 110-230VAC, 12-48VDC, or PoE++ to suit your unique operational requirements. For modern connectivity, a **front-facing USB 3.0 port** ensures seamless integration for essential accessories. While its slim profile does not include a hot swap HDD bay or PCIe slots, it is designed to deliver straightforward, reliable performance in settings that demand efficiency and durability. Whether you're managing industrial applications, control systems, or compact office setups, the Pocket PC transforms how you control your digital workspace—without sacrificing power or reliability.
